

Mechatronics Engineer

Tehran, Iran | a.h.nematkhah@gmail.com

linkedin.com/in/amirhossein-nematkhah | github.com/A-Nematkhah

PROFILE

Mechatronics engineer with industrial experience in mechanical design, production systems, project management, and intelligent automation. CAD, simulation, industrial workflows, and AI-based robotics research.

EDUCATION

M.Sc. Mechatronics Engineering â Amirkabir University of Technology (Ongoing)

B.Sc. Mechanical Engineering â Sahand University of Technology

EXPERIENCE

Industrial Designer â Mechatronic Mobtakeran Arg

Laboratory printers, dental milling systems, scanners, product development

Mechanical Designer & Engineer â Iranian Steel Development Group

Steel line equipment, industrial machinery, manufacturing, scheduling

Product Designer â NYOP (Netherlands)

Smart home products, insect trap, air quality monitoring, CAD optimization

SKILLS

SolidWorks, CATIA, AutoCAD, GD&T, FEA, Motion Study

MATLAB/Simulink, Python, PLC Ladder, FluidSIM, MS Project, Primavera

Robotics, RL, Sensor Fusion, Intelligent Control

SELECTED PROJECTS

Housingless Rolling Stand â SolidWorks industrial mill equipment

Sliding Mode Control of Robotic Manipulator â MATLAB/Simulink

Honda Super Cub C125 EV Conversion Plan â MS Project

Legbelt Smart Bed Bug Trap â Product design & FEA

CERTIFICATES

Machine Learning with Python â FaraDars (1FB53901)

Microsoft Project 2019 â FaraDars (05419F53)

Advanced RL with Python â FaraDars (38FA56B2)
